

ALCOA FASTENING SYSTEMS & JACK OF ALL TRADES

SKILLED FACTORY HIRING EVENT

Wednesday, April 13th

Workforce Solutions for the Heart of Texas, 1416 S. New Road, Waco

10:00 AM - 2:00 PM / 3:00 PM - 7:00 PM

Alcoa Fastening Systems, a world leader in the field of industrial fastening systems, seeks highly skilled and qualified individuals for their Manufacturing Team. We provide an excellent total compensation package and a challenging, fast-paced team environment.

Candidates interested in applying for a position on our winning team, who meet the stated qualifications below, can apply with Jack of All Trades during the times listed above. *Candidates may be interviewed at the event or scheduled for an interview at a later date. We are looking for specific skills and not all applicants will be interviewed.*

*****We operate multiple fixed-shifts and most production hiring will be for 2nd and 3rd shifts*****
Tryout positions will be offered through Jack of All Trades.

Production Technician

Set-up / operate complex cold heading and rolling machines to produce a wide variety of industrial fasteners. Experience on this type of equipment is preferred, or a minimum of 3-5 years of experience performing complex mechanical work, such as aircraft, automobile, truck, construction or military equipment mechanic. Pay rate \$16.00-\$21.00

Machining Technician

Set-up and operate a variety of manual and/or CNC metal cutting machines, working to very close tolerances. Manufacture tooling for production machines, repair parts for machinery and equipment, and a variety of other items. Must have 5+ years of precision machining experience. Pay rate \$18.00-\$22.00

Maintenance Technician

Perform mechanical or electrical maintenance and repair on manufacturing equipment and plant facilities. Diagnose problems and develop effective solutions. Interface with subcontractors and order required repair parts and supplies. Must have 5+ years of experience in the area of either mechanical or electrical maintenance on complex industrial machinery, equipment, and facilities. Pay rate \$18.00-\$22.00

Processing Technician

Operate heat treat furnaces, mechanical and electroplating equipment, or wastewater treatment equipment. Follow detailed sequence of operations to ensure product meets specifications or that wastewater is treated properly. Must have 3-5 years of experience operating comparable equipment. Pay rate \$14.00-\$19.00
